**SECTION I**

**INTRODUCTION**

**FISCAL YEAR 2022-23**

On April 22, 1996, the Contra Costa Mosquito & Vector Control District Board of Trustees established an assessment district by Resolution No. 96-5 to collect revenue for the purposes of mosquito and vector control abatement. The assessment district is imposed annually on property tax bills.

After the assessment was established, Articles XIIC & XIID (Proposition 218) were added to the California constitution on July 1, 1997. Proposition 218 radically modified the procedures for forming and increasing assessments. However, Article XIII D states:

*“The following assessments existing on the effective date of this article shall be exempt from the procedures and approval process set forth in Section 4: (a) Any assessment imposed exclusively to finance the capital costs or maintenance and operation expenses for sidewalks, streets, sewers, water, flood control, drainage systems or vector control. Subsequent increases in such assessments shall be subject to the procedures and approval process set forth in Section 4.*

Since the Mosquito & Vector Control Assessment existed prior to the changes in the California Constitution, it is “grandfathered” in and not fully subject to the procedures and approval process established for new vector assessments by Proposition 218. However, should the Board of Trustees decide to increase the assessments above the prior approved maximum rate, the assessment would be subject to the new protest proceedings as created by Proposition 218. Below are the requirements that were followed to establish the assessment pursuant to the California Health and Safety Code (Section 2082, formerly Section 2291.2).

- a. District adopted a resolution stating its intention to levy an assessment that included:
  - i. An estimate of the costs (amount to be assessed) by zone;
  - ii. The duration of the assessment was stated;
  - iii. The general objectives of the surveillance/control project were defined; and,
  - iv. The time and place for the public meeting was fixed.
- b. Conducted a public meeting and public hearing after providing notice to property owners.
- c. Determined the percentage of protest after the close of the public hearing.

Every year since 1996, the Board of Trustees has approved an annual resolution along with an Engineer's Report to establish the assessments for that Fiscal Year and authorize the levy and collection of those assessments.

Pursuant to the current provisions of Section 2082 of the Health and Safety Code of the State of California and in accordance with Resolution No. \_\_\_\_ of the Board of Trustees of the Contra Costa Mosquito & Vector Control District, adopted on July 11, 2022, in connection with the proceedings of the Board, the continuation of a Mosquito and Vector Control Assessment (the "Assessment"), I, Eduardo R. Espinoza, P.E., duly authorized representative of Francisco & Associates, consultant to the District, submit this Engineer's Report consisting of the following parts and exhibits:

**PART A: DESCRIPTION OF SERVICES**

A description of the services to provide mosquito (and other arthropod) and rodent surveillance and control projects to the properties within the boundaries of the District.

**PART B: ESTIMATE OF COSTS**

An estimate of the costs of mosquito (and other arthropod) and rodent surveillance and control projects to be financed from the proceeds of the mosquito and vector control assessment.

**PART C: DESCRIPTION OF THE PARCELS AND ASSESSMENT BOUNDARIES**

A description of each parcel of property and the boundaries of the area that is subject to the mosquito (and other arthropod) and vector control assessment.

**PART D: DESCRIPTION OF THE ASSESSMENTS**

A description of the mosquito (and other arthropod) and rodent control assessment including:

- a. Basis of the assessment; i.e. assessment methodology;
- b. Amount of the assessment for each lot or parcel; and
- c. Duration of the assessment.

**PART A**

**DESCRIPTION OF SERVICES**

The mosquito and vector control assessment revenue as established by Resolution 96-5, is used to fund the operation and maintenance of the Contra Costa Mosquito & Vector Control District (the "District") programs and to finance the incidental costs associated with the preparation and administration of the Assessment program. Below is a listing of the programs and services that are financed by the Assessment.

**Mosquito (and Other Arthropod) Surveillance and Control Projects**

The District provides a variety of mosquito (and other arthropod) surveillance and control programs (hereinafter "Mosquito Control Services") to its citizenry. Below is a listing of some of the services that are provided:

- 1) Property inspection (surveillance) and control for mosquito problems including larval inspection and control;
- 2) Ground nesting yellow-jacket control;
- 3) Surveillance of public parks for ticks that transmit Lyme disease;
- 4) Insect and tick identification services for the public, doctors, and veterinarians;
- 5) Surveillance for mosquito borne encephalitis and other vector-borne diseases;
- 6) Projects to restore the Delta marshes to their original ecological state and thus reduce mosquito sources;
- 7) Active role in the research and development of marsh management guidelines for mosquito control;
- 8) Cooperative projects with the University of California to field test new "bio-rational" methods of mosquito control;
- 9) Free mosquito-fish for residents to release in private ponds and other mosquito sources;
- 10) Provide speakers for community groups or block meetings; and
- 11) Provide information on Africanized Honey Bees.

**Rodent Surveillance and Control Projects**

The District provides a variety of rodent surveillance, prevention, and control programs (hereinafter "Rodent Control Services"). Below is a listing of some of the services that are provided:

- 1) Provide advice to homeowners with rodent problems;
- 2) Conduct site visits upon request from the citizenry to assist them in rodent prevention and control;
- 3) Maintain a rabies reduction program by loaning traps to the public for capturing of skunks; and
- 4) Provide speakers for community groups or block meetings.

**PART B**

**ESTIMATE OF COSTS**

The total estimated expenditures for Mosquito Control Services to be funded by revenue from the Assessment for Fiscal Year 2022-23 is \$1,591,137. The total estimated expenditures for Rodent Control Services to be funded by revenue from the Assessment for Fiscal Year 2022-23 is \$484,499. Because of the varying degree of service received throughout the District, four (4) benefit zones have been created to accurately track the cost of services in those areas. Refer to Part D for a description of the four (4) benefit zones. For a detailed breakdown of these costs, refer to the following tables.

Administration of the assessment is performed annually. Administration includes updating the annual assessment roll to ensure consistency with the assessment methodology detailed in the Engineer's Report dated June 3, 1996. Administration also includes the preparation of an annual report for submittal to the Board of Trustees for approval for the proposed fiscal year assessments.

**PART C**

**DESCRIPTION OF PARCELS AND ASSESSMENT BOUNDARIES**

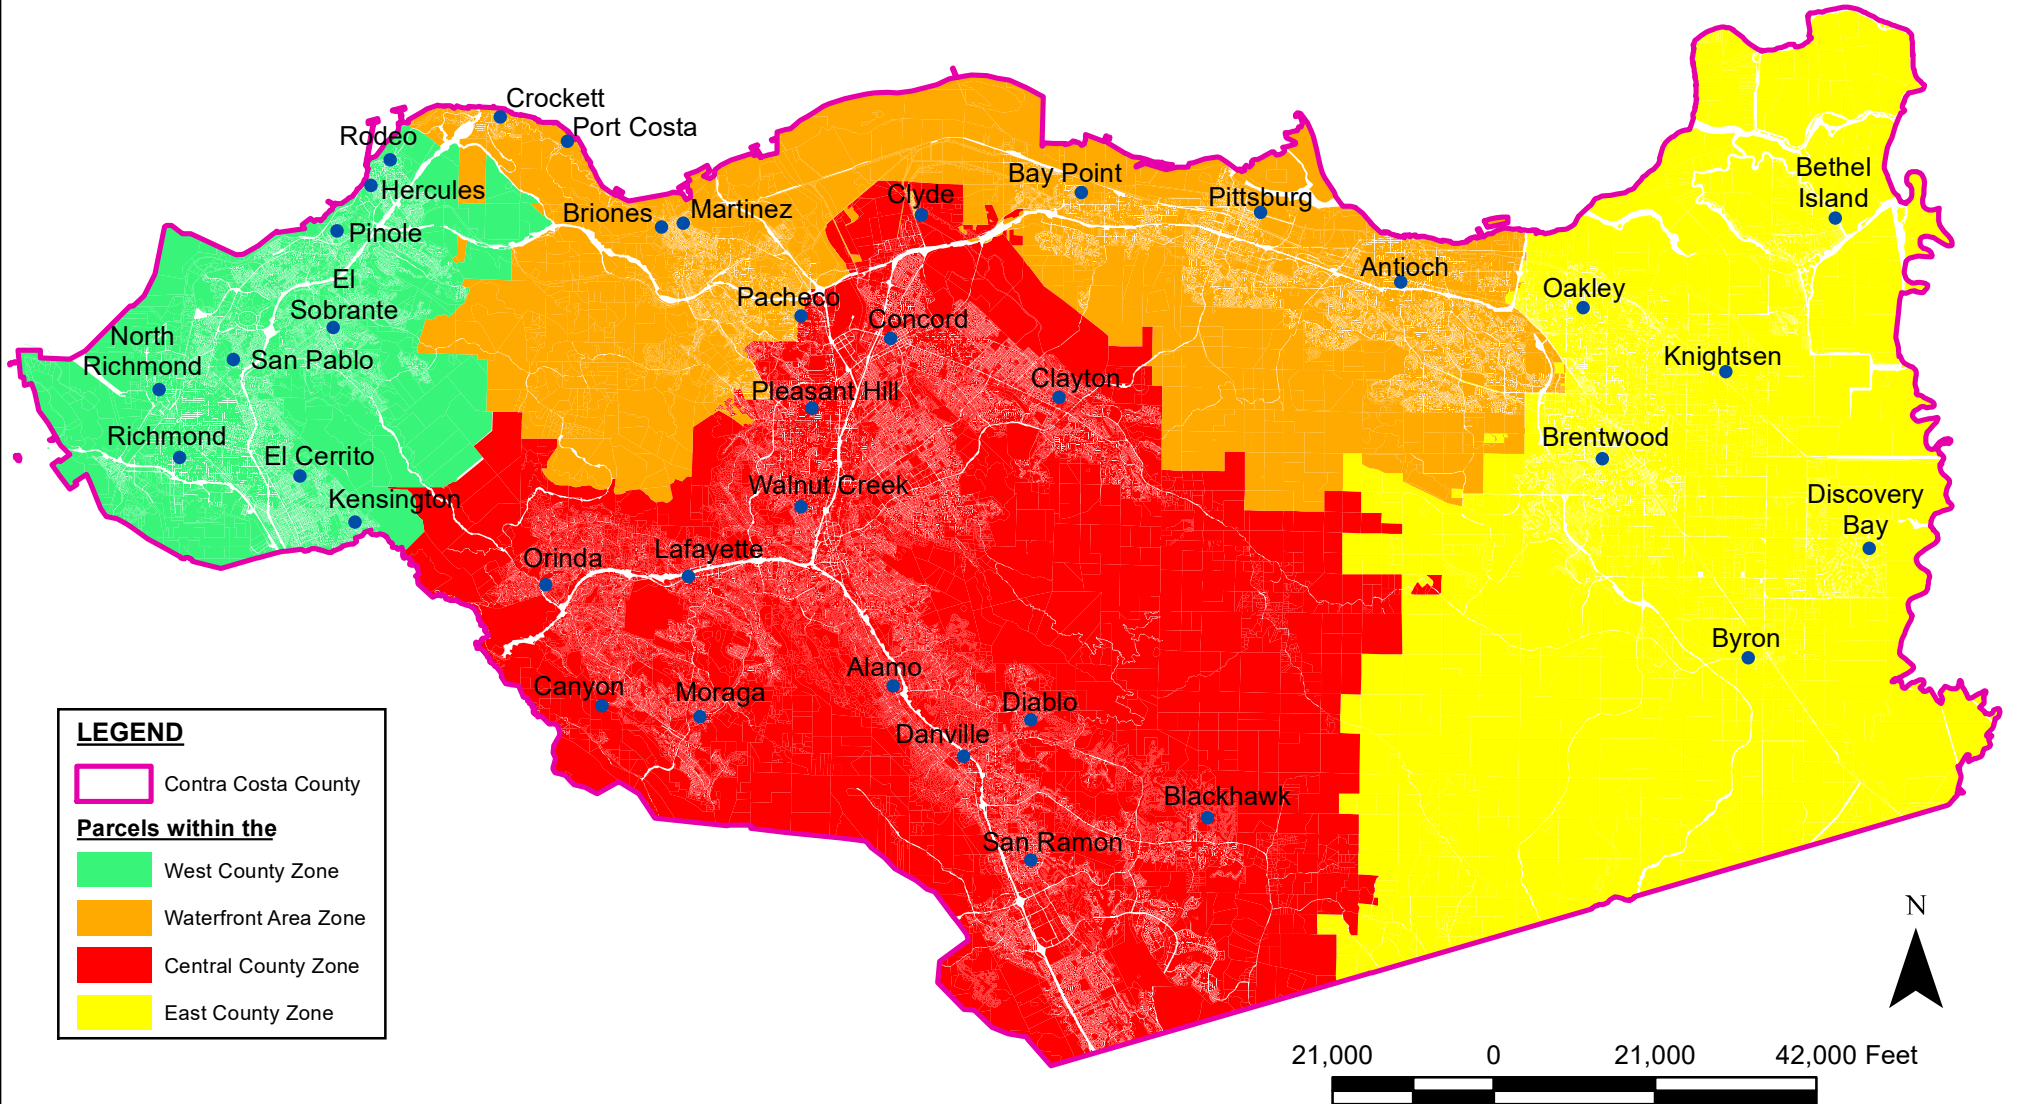

The boundaries of the Assessment are completely contiguous with the boundaries of the District. The lines and dimensions of each lot or parcel within the District are those lines and dimensions shown on the maps of the Assessor of the County of Contra Costa for the year when this report was prepared and are incorporated by reference herein and made part of this Engineer's Report.

All future annexations to the District shall be included in the Assessment. In future years, if any new parcels are created as a result of the division or consolidation of land, recalculation of the assessments will be conducted, and the new parcels will be included within the area of assessment.

### County of Contra Costa, State of California

**PART D**

**DESCRIPTION OF THE ASSESSMENTS**

**METHOD OF ASSESSMENT**

This section of the report describes the benefit assessment methodology that was developed to establish the basis of assessment for apportioning the cost of Mosquito and Rodent Control Services to each lot or parcel within the district, based upon Assessment Units as described later in this section. The basis of assessment was developed by *Bureau Veritas* based upon information provided by the Contra Costa Mosquito & Vector Control District personnel, and the requirements of Section 2291.2, "Vector Surveillance and Control Projects" of the California Health and Safety Code. Section 2291.2 of the California Health & Safety Code has now been replaced by Section 2082, however the following sections review the requirements of the California Health & Safety Code that existed when the Assessment was formed in 1996 and describe the adopted benefit assessment methodology.

**LEGAL REQUIREMENTS**

Section 2291.2, "Vector Surveillance and Control Projects" of the California Health and Safety Code permits any Mosquito and Vector Control District which provides mosquito (and other arthropod) and rodent control services to levy an assessment for Mosquito and Rodent Control Services after the procedures as prescribed in Section 2291.2 of the California Health and Safety Code have been complied with.

The California Health and Safety Code further allowed the agency to establish a benefit assessment methodology which is used to calculate the assessment to be levied on each lot or parcel within the District in proportion to the estimated benefit received.

The California Health and Safety Code also allowed for the establishment of benefit zones based upon variations in the level of benefit received by parcels within one zone in relationship to parcels within another zone with a similar class of improvement. Section 2291.2 stated that:

*"The District Board may institute projects for one or more zones, for the financing and execution of mosquito (and other arthropod) and rodent surveillance and control projects of common benefit to the zone or zones."*

**ASSESSABLE PARCELS**

Below is a listing of the various assessable land use classifications within the boundaries of the District based on the records of the Assessor of the County of Contra Costa.

The land use classifications are defined as follows:

**Single-Family Residential/ Rural Single-Family Residential** – Single-family residential and rural single-family residential parcels are defined as parcels that have a land use classification as single-family residential and rural single-family residential with the Contra Costa County Assessor's Office and are located within the boundaries of the District.

**Multi-Family** - Multi-family parcels are defined as parcels that have a land use classification as multi-family, which includes duplexes, triplexes, apartments, etc., with the Contra Costa County Assessor's Office and are located within the boundaries of the District.

**Condominium** - Condominium parcels are defined as parcels that have a land use classification as condominium, cluster home, co-op or townhome with the Contra Costa County Assessor's Office and are located within the boundaries of the District.

**Mobile Homes** - Mobile Home parcels are defined as parcels that have a land use classification as mobile home with the Contra Costa County Assessor's Office and are located within the boundaries of the District.

**Commercial/Industrial** - Commercial and industrial parcels are defined as parcels that have a land use classification as commercial or industrial with the Contra Costa County Assessor's Office and are located within the boundaries of the District.

**Recreational/Institutional** - Recreational and institutional parcels are defined as parcels that have a land use classification as recreational or institutional with the Contra Costa County Assessor's Office and are located within the boundaries of the District.

**Agriculture** - Agriculture parcels are defined as parcels that have a land use classification as agricultural with the Contra Costa County Assessor's Office and are located within the boundaries of the District.

**Exempt** - Exempted from the assessment are parcels of land owned by a public agency.

### **ASSESSMENT UNITS**

To establish the special and direct benefit relationship to the individual parcels based on the benefit they receive from Mosquito and Rodent Control Services, an Assessment Unit system was adopted. Each parcel is assigned Assessment Units in proportion to the estimated benefit the parcel receives from Mosquito and Rodent Control Services. The total number of Assessment Units is then divided into the annual revenue requirement to determine the cost per Assessment Unit. The benefit assessment for each parcel is then determined by multiplying the number of Assessment Units for each parcel by the cost per Assessment Unit.

Since the assessment must be based upon the type of use of property and the degree of service each parcel receives from the Mosquito and Rodent Control Services an assessment methodology was developed based on both land-use and degree of service. This methodology ensured that the assessments will be levied in proportion to the estimated benefits received. The assessment methodology developed determines the number of Assessment Units assigned to each parcel based on the number of Benefit Units (land-use) and a Benefit Factor (degree of service) as described on the following page.

**Benefit Units**

The Benefit Unit Factor is used to equate the various parcels within the district to a single-family parcel. The Benefit Units for a single-family parcel is defined as 1.00 Benefit Unit (BU) and the other parcels are assigned Benefit Units based upon their relative size proportional to the typical single-family parcel. For example, a golf course parcel is generally larger than a single-family parcel and therefore has an increase in the number of BUs assigned to that parcel. The Benefit Units assigned to parcels within each land use category are defined below:

**Single-Family Residential Parcels:** Since the single-family residential parcel represents over 70% of the total parcels within the District, it is used as the basic unit and is defined as **1.00 BU**. Except, rural single-family parcels are defined as **2.00 BUs** because they are generally larger in size than non-rural single-family parcels.

**Condominium and Mobile Homes:** Due to increased population density and reduced size of structure relative to the typical single-family residence, each condominium and mobile home is defined as **0.75 BU**.

**Multi-Family Parcels:** Due to increased population density and reduced size of structure relative to the typical single-family residence, multi-family parcels have been assigned equivalency factors based on the number of units associated with the parcel as follows:

**Table 3 - Multi-Family Parcels Assigned Benefit Unit Equivalency**

<b>Number of Units</b>	<b>Benefit Units</b>
2 to 4 units	2.00 BUs
5 to 12 units	3.00 BUs
13 to 24 units	4.00 BUs
25 to 59 units	5.00 BUs
60 + units	6.00 BUs

**Commercial, Industrial, Recreational, Institutional, Agricultural and Undeveloped Multi-Family Parcels:** Commercial, industrial, recreational, institutional agricultural and undeveloped multi-family parcels are generally larger in size relative to a single-family residential parcel and therefore should have a larger benefit unit factor. All commercial, industrial, recreational, institutional agricultural and undeveloped multi-family parcels are given a minimum BU factor of 4.00 BUs. Because these types of land uses vary considerable in size, certain land uses have their benefit units increased above the minimum of 4.00 BUs as shown on the following page:

**Table 4 - Land Use and Benefit Units Greater than 4.00 BUs**

<b>Land Use Classification</b>	<b>Benefit Units</b>
Shopping Centers	6.00 BUs
Industrial Park	6.00 BUs
Private Schools	6.00 BUs
Hospitals	6.00 BUs
Cemeteries, Mortuaries	6.00 BUs
Retirement Housing Complexes	6.00 BUs
Private Parks and Playgrounds	6.00 BUs
Private Community Facilities, Recreational, Etc.	6.00 BUs
Orchards, Urban Acreage, Dry Farming , Grazing (10 to 40 Acres)	6.00 BUs
Agricultural Preserves – Williamson Act Parcels (10 to 40 acres)	6.00 BUs
Orchards, Urban Acreage, Dry Farming, Grazing (40 +Acres)	8.00 BUs
Agricultural Preserves – Williamson Act Parcels (40+ acres)	8.00 BUs
Heavy Industrial	8.00 BUs
Golf Courses	8.00 BUs

**Other Miscellaneous Properties:** The Contra Costa County Assessor's office also has a land use category entitled "Other Miscellaneous Properties". Private parcels which fall into this category will be assessed 1.00 BU per parcel.

**Benefit Factors**

Because there are varying levels of benefit each parcel receives from Mosquito and Rodent Control Services, Benefit Factors have been established for each service separately. The Benefit Factor is based on a Value Factor, Activity Factor and a Production Factor as described below (**Benefit Factor = Value Factor + Activity Factor + Production Factor**).

- **Value Factor:** assigned to all assessable parcels due to the reduction of mosquitoes (and other arthropods) and rodents, which enhance the desirability and value of a property by providing a safe and attractive environment for the citizenry. All assessable parcels are given a factor of 0.50.
- **Activity Factor:** assigned to parcels which are developed for habitation or which have requirements for people being outside on the parcel, such as residences or agricultural properties, as they receive benefit from the reduction in mosquitoes (and other arthropods) and rodents, thereby allowing activity to occur on that parcel without inconvenience. Therefore, parcels with activity are assigned a factor of 0.50.
- **Production Factor:** assigned to parcels which promote the spread or breeding of mosquitoes (and other arthropods) and rodents. Therefore, parcels with production are assigned a factor of 0.50.

Because properties located throughout the District will receive varying degrees of benefit for Mosquito and Rodent Control Services independently of each other, separate benefit factors have been developed for each service as described below.

**Table 5 - Mosquito Control Services Benefit Factors**

Special Benefit Factors for Mosquito (and other Arthropod) Control Services

**BENEFIT ZONES**

Because the degree of Mosquito and Rodent Control Services needed vary throughout the District, four (4) distinct zones have been established to accurately track the costs associated with those areas and assess them to the benefiting property owners. These benefit zones are identified as follows:

- Zone WC - West County

El Cerrito	El Sobrante
Hercules	Kensington
North Richmond	Pinole
Richmond	Rodeo
San Pablo	

- Zone WA - Waterfront Area

Antioch	Bay Point
Briones	Clyde
Crockett	Martinez
Pittsburg	Port Costa

- Zone CC - Central County

Alamo	Blackhawk
Canyon	Clayton
Concord	Danville
Diablo	Lafayette
Moraga	Orinda
Pacheco	Pleasant Hill
San Ramon	Walnut Creek

- Zone EC - East County

Bethel Island	Brentwood
Byron	Discovery Bay
Knightsten	Oakley

The zones referenced above are shown on the map included in Part C of this report.

Below are the assessment rates for Fiscal Year 2022-23 for each land use type by zone. These rates have remained the same since Fiscal Year 2005-06.

**DURATION OF ASSESSMENT**

The duration of the Assessment must be set by the District as required by the Code. The Board set the duration of the assessment for fifty (50) years beginning in 1996-97, unless at the end of such time there remains in the District mosquitoes (and other arthropods) or other vectors which create or may create a nuisance to the public health, in which case the assessments may be extended on a yearly basis.

**MAXIMUM ASSESSMENT**

The maximum assessment rate, which may be levied during the life of the Assessment, may be adjusted annually by the All Urban Consumer Price Index for the San Francisco Urban Area each year, but not to exceed five percent (5%) in any year. For example, the CPI percentage change for FY 2002-03 was 5.38%, however, the increase in the maximum assessment rate for FY 2002-03 was limited to 5.00%. The adjustment in the Consumer Price Index (CPI) for FY 2022-23 is based on the increase of the annual average in the U.S. Department of Labor San Francisco - Oakland - San Jose, CA Area (All Urban Consumers) index from year 2020 to 2021.

**Table 8 - Maximum Assessment per Single-Family Home for FY 2022-23**

The assessment levied per single-family home shall be in the range indicated above, respectively for each zone, with the exact amount to be levied in any given year to be determined by the budget for that year. Other land use classifications will be adjusted accordingly by assessment benefit unit. This range of assessments shall be increased in each subsequent year by the annual average percentage increase from the current year in the All Urban Consumer Price Index for the San Francisco Urban Area. The maximum amount of assessment in any future year shall not exceed the maximum amount set forth above, as adjusted by the CPI, unless otherwise approved by ballot pursuant to the laws which govern such increases in assessments.
