#### 2.\* AUTHORIZATION TO MEET VIA TELECONFERENCE

A. Authorization to Meet Via Teleconference Pursuant to Government Code Section 54953, Subdivision (e)(1)(C) – Consider finding by a majority of vote under Government Code 54953 (e)(3) that, as result of the COVID-19 emergency, the meeting should be held by teleconference pursuant to Subdivision (e) of Section 54953 of the Government Code.

#### **BACKGROUND AND STATUS:**

In light of the Governor's declaration that a state of emergency exists due to the incidence and spread of the novel coronavirus, and the pandemic caused by the resulting disease COVID-19, the Board should consider whether meeting in person would present imminent risks to the health or safety of meeting attendees.

The Centers for Disease Control indicates that COVID-19 is a highly transmissible virus that is spread when an infected person breathes out droplets and very small particles that contain the virus, and such droplets and particles are breathed in by other people. Since June of 2021, a more infectious variant of the virus, known as the Delta Variant, has emerged and now accounts for the vast majority of COVID-19 cases. Since then other variants continue to emerge.

Although effective vaccines have been approved by the U.S. Food and Drug Administration for emergency use, vaccination rates are slow and have not yet reached a point to significantly control community transmission. As of September 27, 2022, 74 % of Californians are fully vaccinated.

Those who become infected with COVID-19 are at risk of serious illness and death. As of September 27, 2022, over 1.05M Americans have died from the virus. Many more have been hospitalized with serious illness. Currently, in Contra Costa County, there are 43 people hospitalized with COVID-19.

On September 20, 2021, the Contra Costa County Health Officer issued recommendations for safely holding public meetings that include recommended measures to promote social distancing. Among the Health Officer's recommendations, online (teleconferencing) meetings are strongly recommended as those meetings present the lowest risk of transmission of SARS-CoV-2, the virus that causes COVID-19. Having the option to attend the meetings by teleconference would directly reduce the risk of transmission among meeting attendees, including members of the public and agency staff, which has the ancillary effect of reducing risk of serious illness and death as well as reducing community spread of the virus.

In order to accommodate the requests from some Trustees who desire to attend in-person, the District is opening the Board room for a limited number of Trustees to participate in-person.

Trustees may attend in-person if they wish to do so, while others may continue to participate remotely. The District has documented the vaccination status of Trustees and a pre-meeting health screening checklist for in person attendees will also be required. The number of in-person attendees will also be limited to ensure appropriate social distancing is maintained per County Health Officer recommendations. Since these measures are not practically enforceable for public attendees and allowing public attendees would make contact tracing (in the event of an attendee's testing positive for the virus) impossible, the Boardroom will remain closed to the public at this time.

If the authorization to meet by teleconference is not approved by a majority vote, then the meeting will adjourn after this item and the remaining agenda items will be rescheduled to a future in-person meeting.

**Recommendation -** Move that the Board finds that, as a result of the COVID-19 emergency, meeting in person would present imminent risks to the health or safety of attendees, and the meeting should be held by teleconference as authorized by Subdivision (e) of Section 54943 of the Government Code.

- **3.\* AGENDA MANAGEMENT** Consider order of items.
- 4. PUBLIC INPUT ON NON-AGENDA ITEMS
- **5. PRESENTATION**Daniel Pellegrini, 25 years of service.

#### 7. INFORMATION ITEMS

A. Update and Discussion Regarding Discovery of Invasive *Aedes aegypti* Mosquitoes in Contra Costa County – District staff provided information on the findings of invasive mosquitoes in Martinez and the steps the District has taken so far to inspect properties, treat sources, and prevent the spread to other parts of the County. General Manager Macedo and Legal Counsel Coty provided information and answered questions regarding the next steps, including obtaining inspection and abatement warrants to access those properties where access has been denied.

#### 8.\* ACTION ITEMS

- A.\* Consider Adoption of Resolution 22-3 Authorizing Investment of Monies in the Local Agency Investment Fund (LAIF) two signatures are required in order to make changes to those employees authorized to make deposits or withdrawals in the District's LAIF account. Currently, the only employees authorized to do so, per Resolution 18-1, are the General Manager, Paula Macedo, and the previous Administrative Services Manager, Maria Bagley. As Maria Bagley is no longer a District employee, the District needs to remove her name from the "authorized" list, which can only be done with two signatures, hence the need to add a third person, the Board President. Trustee Murray suggested that the secretary or the Vice President be included as authorized signers in addition to the President.
- \*\* A motion was made by Trustee Elam and seconded by Trustee Carlston to approve Resolution 22-3 Authorizing Investment of Monies in the Local Agency Investment Fund (LAIF) to be transferred by General Manager Macedo and/or the Board of Trustees President, with the amendment to include the Board of Trustees Vice President as additional authorized party. *Motion passed unanimously*.
  - B.\* Consider Approval of the Coastal Region Vector Control Mutual Aid
    Agreement and Authorize the General Manager to Execute an Addendum to
    add the Contra Costa Mosquito and Vector Control District as a Party A
    Mutual Aid Agreement was entered into by Alameda County Mosquito Abatement

District, San Mateo County Mosquito & Vector Control District and Marin/Sonoma Mosquito and Vector Control District in 2020 for the purpose of allowing each agency to request and provide assistance during a mosquito-borne virus outbreak or other public health situation, incident or condition that causes an increased demand for vector control services. The General Manager brought the mutual aid agreement in front of the Board previously, as an information item for discussion. Since then the District has met with SEIU 1021 representatives to discuss the agreement. With the recent discovery of invasive mosquitoes in Contra Costa County, the District would like to proceed and requested Board consideration and approval of the agreement to authorize the General Manager to execute an addendum to add the District as a party.

- \*\* Motion was made by Trustee Carlston and seconded by Trustee Pay to approve the Coastal Region Vector Control Mutual Aid Agreement and Authorize the General Manager to Execute an Addendum to add the Contra Costa Mosquito and Vector Control District as a Party. *Motion passed unanimously*.
  - C.\* Approval of Updated District Trustee Committee Members for 2022 The District's Committee list has been updated to include Trustee Finlinson's committee selection and the removal of Trustee Howell due to her resignation from the Board.
- \*\* Motion was made by Trustee Pellegrini and seconded by Trustee Fitzsimmons to approve the amended 2022 Trustee Committee Members, adding Trustee Finlinson to the personnel committee. *Motion passed unanimously*.

#### 9. BOARD AND STAFF REPORTS

- A. BOARD None
- B. GENERAL MANAGER General Manager Macedo advised she will be out of the office for the rest of the week and intermittently the following week, although available via email or cell phone.

The MVCAC Annual Conference will be held at the Disneyland Hotel January 29-31, 2022 and rooms will most likely sell out fast. Per Board policy, the President and Vice President are authorized to attend the conference, and any other Trustees requesting travel to this conference will need to be authorized by Board action. Since the 2023 President and Vice President will not be elected until after the conference registration deadline, General Manager Macedo suggested any Trustee that is interested in attending this conference should ask for authorization regardless of Trustee position. There will be an action item at the next meeting for that.

General Manager Macedo noted that Administrative Analyst II Martini has been working hard getting all the documents to the auditors to help complete the FY22 audit and informed the Board that they are currently working with Rick Woods, Finance and Administration Director with CSDA, as a consultant, to get answers to any financial related questions as the audit is being finalized. Lastly, the

Administration report of the staff reports will no longer be included as an agenda packet item of the staff report enclosure but representatives of that department will be present at the meetings to present any report and answer questions.

The District hired Christine Widger, former Vector Control Aide (seasonal) for the front desk position to fill out the vacant position of Administrative Analyst I.

C. STAFF – Public Affairs Director Woods included information on the invasive species message from the District, which is now more direct in spreading awareness throughout the communities where the invasive *Aedes aegypti* mosquitoes have been found. She also mentioned the District will have a booth at the upcoming Lafayette Art & Wine Festival.

Scientific Program Manager Schutz provided a brief update on WNV activity and noted its been a very mild WNV season so far with only two positive mosquito samples this season, one positive dead bird from earlier in the season, and a positive chicken from the flock in Holland Tract. To date, the District has not seen any positive samples for *St. Louis encephalitis* (SLE) within the County to date, however a SLE-positive pool was reported by San Joaquin County from Bacon Island, which is directly across the slough from Holland Tract, right on Contra Costa County's border. The District routinely tests for SLE and will be looking out for this due to the recent discovery of SLE in San Joaquin County.

Program Supervisor Wexler updated the Board on the mosquito counts found in the Martinez waterfront area, and reported that *Aedes dorsalis* mosquitoes' counts are above average around the marshes and technicians have been out working hard to treat those areas. Trustee Pellegrini thanked the staff for their efforts in Martinez, and for the hard work from everyone at the District regarding the invasive *Aedes aegypti* mosquito surveillance and control efforts. Trustee Pellegrini added that he has been receiving several calls from the public and appreciates the updated information to pass along to fellow residents.

D. LEGAL – None

Trustee Cowen left the meeting at 8:36 p.m.

#### 10. BOARD COMMITTEE REPORTS

A. Advance Planning Committee Report - Trustee Murray, Chair of the Advance Planning Committee, reported that the committee met on August 22, 2022. He stated that the Five-Year Plan is almost complete and after one to two additional committee meetings the plan will be finalized so it can be presented to the Board for final approval.

**CLOSED SESSION** – 8:40 p.m.

11. CONFERENCE WITH LEGAL COUNSEL – SIGNIFICANT EXPOSURE TO LITIGATION PURSUANT TO PARAGRAPH (2) OF SUBDIVISION D OF SECTION 54956.9 (ONE CASE)

**RETURN TO OPEN SESSION** – 9:06 p.m.

**REPORT FROM CLOSED SESSION** – Direction was provided to Legal Counsel.

- **12. CLOSING COMMENTS** President Krieg thanked District employees for their hard work on the invasive mosquito situation in Martinez. Trustee Pellegrini concurred.
- **13. ADJOURNMENT** 9:07 p.m.

I certify the above minutes were approved as read or corrected at the special meeting of the Board held on October 10, 2022.

# October 2022 Mosquito and Arbovirus Surveillance Report

Updated September 27<sup>th</sup> by Steve Schutz, Ph.D., Scientific Programs Manager

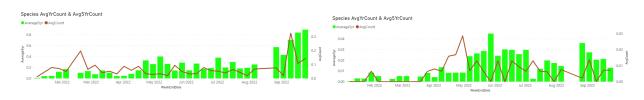

**Human cases:** As of September 27<sup>th</sup>, 67 human cases of West Nile virus had been reported in California in 2022. Two unconfirmed cases have been reported in Contra Costa County (Discovery Bay and Bay Point; possibly travel-related).

**Horses:** Nine equine cases of WNV have been reported statewide. An effective vaccine is available for horses; most affected horses have been unvaccinated.

**Dead birds:** As of September 27<sup>th</sup>, 313 dead birds had been reported, 36 birds had been submitted for testing, (blue icons on map), one confirmed positive for WNV (Discovery Bay, red icon on map). No positive birds since May.

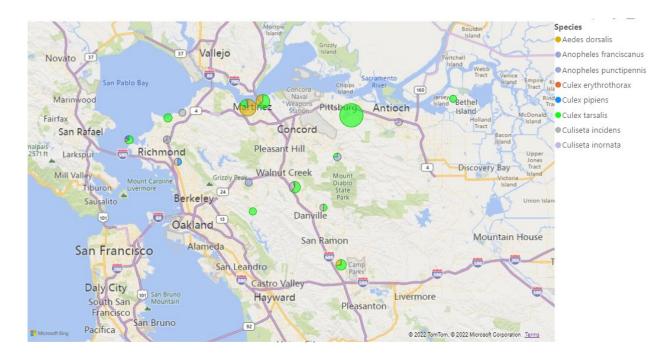

**Light trap counts:** Twenty-two traps are currently being operated daily year-round, with collections made weekly by field technicians. Countywide *Culex tarsalis* and *Culex pipiens* counts are currently below average. Note: 2 collection weeks were skipped in August due to *Aedes aegypti* response.

Culex pipiens counts (red) vs. 5 year average

Map showing light trap locations and relative average species counts from September 1-27th

**CO<sub>2</sub> traps:** Trap counts for *Culex tarsalis* and *Culex pipiens* are currently below average. High *Aedes dorsalis* counts from waterfront areas have continued following each high tide.

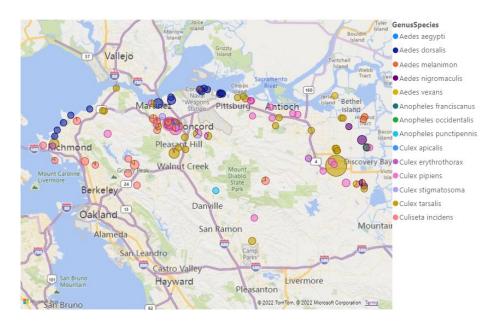

Map showing CO<sub>2</sub> trap locations and relative average species counts September 1<sup>st</sup>-27<sup>th</sup> 2022

**'Random' traps:** 'Random' trapping is conducted throughout the surveillance season by Operations employees and Lab staff in selected areas, as needed. See **Invasive Aedes** below.

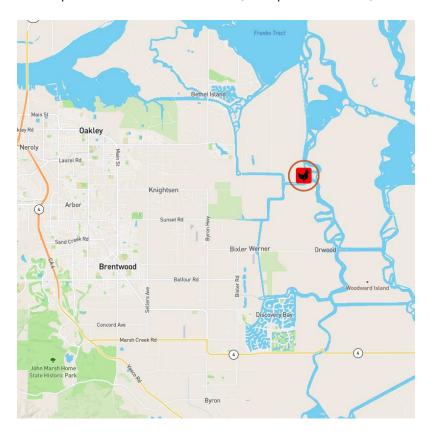

**Mosquito testing:** Through September 27<sup>th</sup>, 256 pooled samples had been tested, **two** positive for WNV (7/25, *Culex tarsalis*, Oakley; 8/8, *Culex pipiens*, Palm Tract-Orwood).

**Larval samples:** Lab staff continues to process larval samples collected by field employees daily, year-round.

Map showing larval sample locations and relative species counts, September 1<sup>st</sup>-27<sup>th</sup> 2022.

**Sentinel chickens:** Five of six chickens from our flock at Holland Tract (Knightsen) have tested positive for WNV antibodies, sample dates 8/22, 9/6 and 9/19.

Other projects: Lab staff has collected ticks for CDPH, University of California and University of Nevada-Reno projects on *Rickettsia* and has also provided *Culicoides* (biting midges) to a researcher at UC Riverside studying the distribution of species in California. We are also continuing to work with Leading Edge staff on troubleshooting and refining the MapVision database and field software. Our Scientific Programs Manager completed a revision of the identification guide to Mosquitoes of California for the MVCAC, to include larvae and adults of invasive *Aedes* species, which has been made available online to all member agencies. The MVCAC Lab Technologies Committee is currently collecting high-resolution photographs of key characteristics of California mosquito species from vector control districts statewide, for eventual inclusion in a shared MVCAC photographic library and will also be collecting photographs of other pest/vector species.

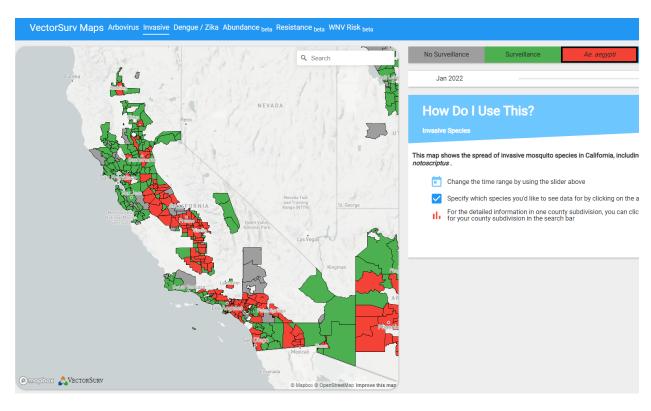

**Weather conditions**: Current average overnight low temperatures are decreasing but are still above the 55 degree incubation threshold for West Nile virus,

**Invasive Aedes**: In early August, one of our Inspectors collected *Aedes aegypti* (the invasive 'yellow fever mosquito' during a routine backyard inspection in Martinez. Following extensive door-to-door inspections and trapping, adults and larvae were recovered from additional locations, all within a ¼ mile radius of the original find. We have been trapping mosquitoes weekly in this area. 48 additional traps ('Gravid *Aedes* Traps') have been purchased. These traps are considered a control method as well as a surveillance tool since they trap and kill egglaying females using sticky paper. Details of the District's response will be included in the

Operations report. Statewide, *Aedes aegypti* continues to expand its range in the Central Valley and southern California.

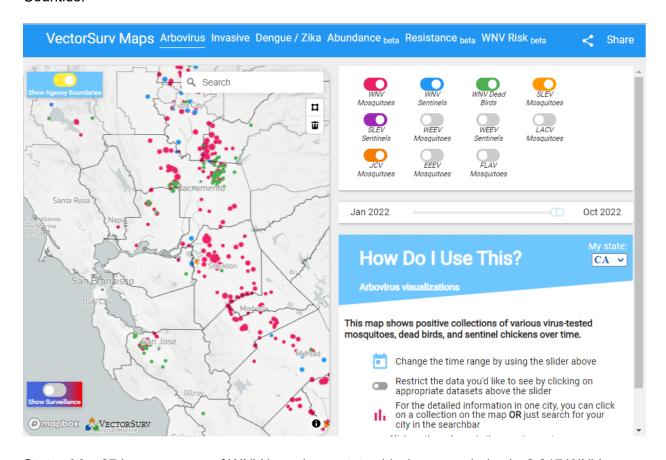

Area of Martinez where Aedes aegypti adults (yellow) and larvae (orange) have been collected. Not all sites are shown, but all are well within the ¼ mile radius of the initial find (red circle).

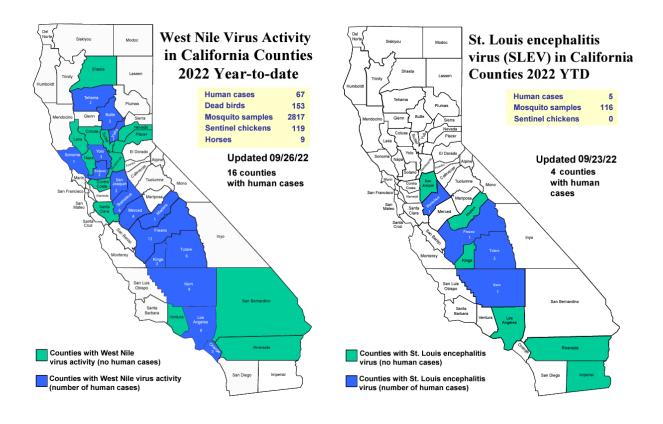

Areas where Aedes aegypti has been reported in 2022 (red)

**Regional:** Through September 27<sup>th</sup>, West Nile virus activity has been detected in Contra Costa (1 positive dead bird, 2 mosquito samples, 5 sentinel chickens), Sacramento, Solano, Santa

Clara, Yolo, Napa and San Joaquin Counties, with human cases reported in Yolo and Solano Counties.

**Statewide:** 67 human cases of WNV have been statewide (see map below). 2,817 WNV positive mosquito samples, 153 positive dead birds and 119 positive sentinel chickens have been reported this year through September 27th. In addition, 116 mosquito samples have tested SLE (Saint Louis Encephalitis) positive (including one in San Joaquin County) and 5 human cases were reported in Stanislaus, Fresno, Kern and Tulare County. We are currently above the 5-year average in terms of WNV positive mosquito samples but below average in other categories.

## **September 2022 Operations Report**

Prepared on September 28<sup>th</sup>, 2022, by David Wexler, Terry Davis, and Jeremy Shannon, Program Supervisors

**General:** Invasive *Aedes aegypti* mosquitoes were confirmed to be present in a Martinez neighborhood in early August. Door-to-door inspections continued into September, paired with trapping to assess the extent of their spread. Within our ¼-mile area of focus, we are down to <u>nine</u> locations pending access out of approximately 460 sites.

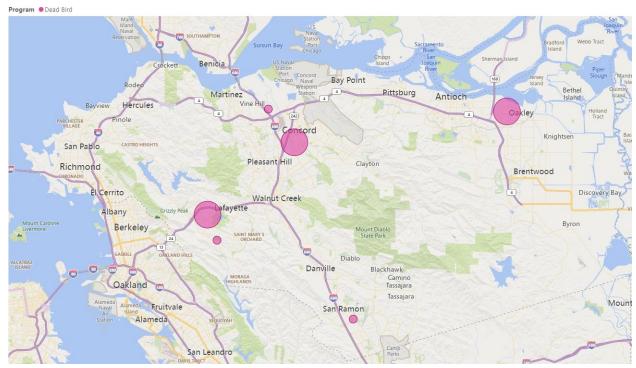

Flooding for the Pittsburg Marsh Fire was completed in July. On-the-ground inspections and treatments were conducted beginning August 23<sup>rd</sup> and will continue as needed.

Another *Aedes dorsalis* fly-off affected the waterfront in Martinez in late September. Backpack Adult Mosquito Control (AMC) operations were conducted on the mornings of September 27<sup>th</sup> to reduce adults in the area. Truck mounted AMC was conducted on the evening of September 28<sup>th</sup>.

New employees are fully active in the field performing yellowjacket, rodent, and mosquito service requests along with inspections and treatments of known mosquito sources. Supervisors continue to regularly review the dangers of heat illness with operations staff prior to beginning fieldwork when necessary.

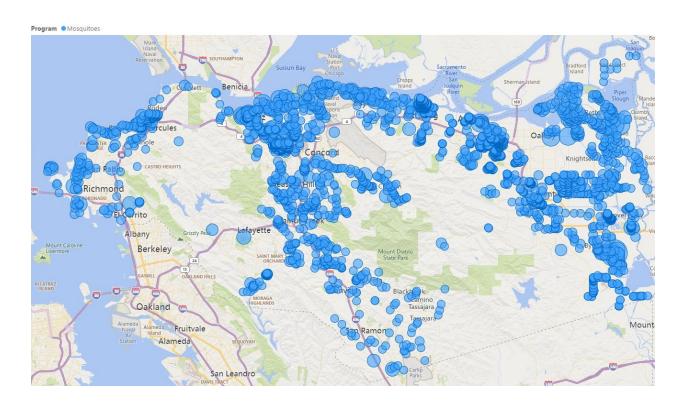

**Dead Birds:** In September 2022 we had 8 dead bird service requests, while we received 10 in 2021. So far, one bird collected 5/4/22 in Brentwood (American crow) has tested positive for West Nile virus.

Dead Bird Program Actions 9/1/22-9/30/22

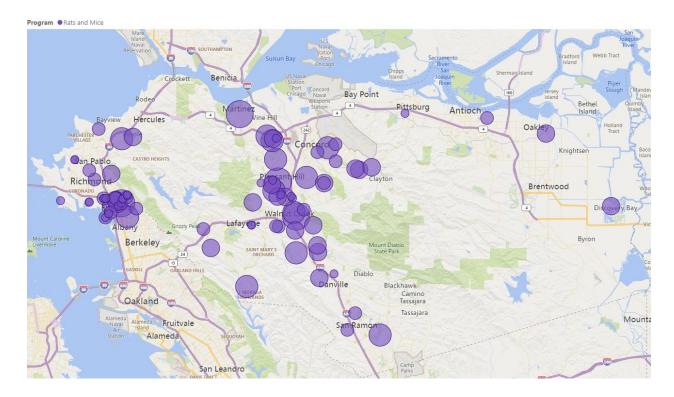

**Mosquitoes:** In September 2022 there were a total of 67 mosquito service requests and 12 requests for mosquitofish, compared to September 2021, when we received 96 service requests for mosquitoes and 10 for mosquitofish. In addition to service requests, technicians and inspectors recorded 1,510 inspection activities, 212 larval surveillance actions, and collected 237 adult trap samples. Field staff recorded 1,111 site treatments during this time to address mosquito production.

Mosquito Program Actions 9/1/22-9/30/22

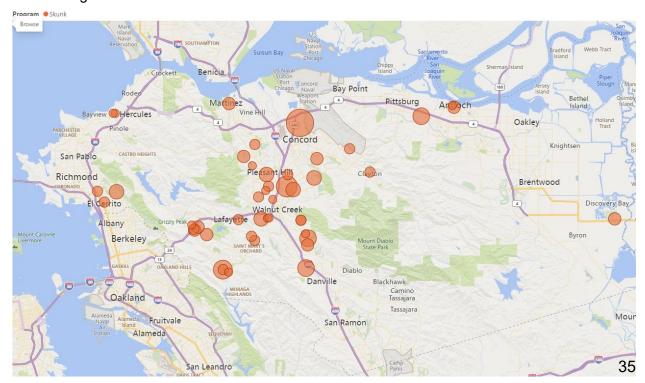

**Rodents:** In September 2022 we received 62 requests for service for rats and mice, a decrease compared to the 106 we received in September 2021. Rodent inspection training continues in the field with individual inspectors as needed. In addition to service requests, technicians and inspectors recorded 50 inspection activities and continue to evaluate sites within their geographic boundaries for future baiting activities.

# Rodent Program Actions 9/1/22-9/30/22

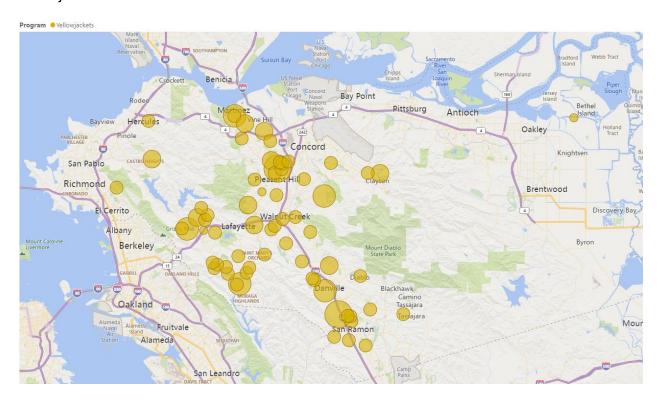

**Skunks:** The District received 26 service requests for skunks in September 2022, a drop from the 39 we received in September 2021. Twenty-four inspection activities were recorded and 3 skunks were picked up in September 2022, whereas 43 inspections and 7 skunk pickups were recorded in September 2021.

## Skunk Program Actions 9/1/22-9/30/22

**Yellowjackets:** We received 87 requests in September 2022 (56 warranted treatment), a significant drop from the 210 requests received in September 2021, with 183 treatments at that time.

Yellowjacket Actions 9/1/22-9/31/22

**Employee training and certification:** With extreme temperatures approaching 115 degrees on September 6, 2022 the district organized in-house training to allow technicians to earn continuing education hours and avoid working in extreme heat.

#### Advertising

The Public Affairs Department's 2022 Advertising campaign focuses on the District's services in print, digital and vehicle advertising. Specific, service-related advertising appears in digital advertising while larger advertising options feature one ad with multiple vectors to represent all of the District's services. During September, certain publications still display the District's mosquito advertising, while most feature advertising focusing on the District's ground-nesting yellowjacket service.

#### **Social Media**

The District uses a combination of Twitter, Nextdoor, and Facebook to conduct District outreach on social media.

The District's policy is that the Public Affairs Department is solely responsible for posts on behalf of the District on the District's official social media accounts. While the Public Affairs staff appreciate the Trustees' enthusiasm in sharing District messages, please do not post comments on District's social media accounts. If there is a comment to make or a private message to send to a resident, the Public Affairs staff will do that.
